

Współczesny świat jest w nieustannym ruchu. Luksus to stan, w którym pośpiech jest nieobecny.

**Contemporary world remains in a constant movement.
Luxury is a state where no rush exists.**

A line of chairs designed for conference rooms, auditoria and waiting rooms.

The chairs are characterised by an original shape of the seat and backrest.

Because of a light construction, possibility of stacking up to 10 pieces and linking chairs and tables in rows, Axo is perfect in quick arrangement of space. Chairs and rows can be marked by magnetically attached numbers. They are upholstered in high quality woolen fabrics. The metal parts are either chromium plated or lacquered. The line is supplemented by 2-seat or 3-seat benches, a table and a cart for the transportation of tables.

Design: Jens Korte

He worked at such design studios as: frogdesign (1987-91), wiege (1993-97), npk industrial design (1997-99). Next, until year 1993 he had occupied himself with educational activity. Since year 1999 he has been working as an independent designer.

„The token of our times is movement – communication.
This movement is an important element of our work and leisure.
Participating in meetings, conferences, trainings is how we work
nowadays. With the thought about this Axo was created.
Axo – the chair fitting every space.”

Jens Korte

„Click“ linking that enables connecting chairs in rows as well as numbering chairs and rows.

AXO LINE OF CHAIRS:

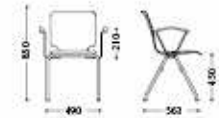

AXO 1A

AXO 1B

AXO 1C
