

CARDINALE

Swoboda linii podstawą całości formy.

Flexibility of the line as the base of the whole form

A line of conference chairs suitable for various interiors.

Because of a light construction and possibility of stacking up to 10 models the chairs are perfect at quick interior arrangement and utilization of space.

Upholstered in high quality fabrics. Metal frames are lacquered in aluminium colour or chromed. No screws visible.

The chair was granted GIO award.

**Design:** Krijn Hamelink

He began his work as a designer in 1969 in a famous design firm Kho Liang le Design Studio. Since 1974 he has been working independently combining design work with educational activities at Rietveld Academy.

„It is a classical example of a form which follows the function. First came an idea of a light construction chair which can easily be stacked. Falling armrests and the back and front legs, entirely integrated with each other, create a unity. Design of this chair has become a challenge for the technology. You see, you believe.”
