

JIMMY

Design źródłem pozytywnych wibracji.

Design as a source of positive vibrations.

A chair suitable for use at modern office areas. The chairs are characterised by a modern shape of the frame, seat and backrest. Because of a light construction, stackability up to 10 pieces the chairs are perfect at a quick rearrangement of space. The frames are either chromium plated or lacquered.

Design: Krijn Hamelink

He began his work as a designer in 1969 in a famous design firm Kho Liang le Design Studio. Since 1974 he has been working independently combining design work with educational activities at Rietveld Academy.

„Decision of creating the chair made of identical shape of a seat and a backrest, made of polipropylen, has led to find out a way of connection using no screws or other connectors. This is how Jimmy was built.”

Krijn Hamelink

A chair safe for natural environment, that could be easily utilised.

JIMMY LINE OF CHAIRS:

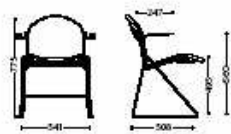

JIMMY 1A
